

Beneficiary Service Fee and Pricing Protocol for Floating Hospitals and Outreach/Satellite Clinics

Version:1.0

Prepared by: Health Sector, Friendship

Date: 19.08.2026

1. Purpose:

This protocol establishes a standardized and transparent fee structure for selected healthcare services provided through Friendship Floating Hospitals and Outreach/Satellite Clinics. It covers revisions to existing registration fees and the introduction of new consultation, procedure, pathological investigation, and surgical service fees.

The protocol aims to:

- Contribute to partial recovery of healthcare service delivery costs.
- Maintain affordability and accessibility for vulnerable and marginalized populations.
- Standardized service fees across Ship Hospital and Outreach/Satellite services.
- Support the long-term sustainability of healthcare operations.
- Promote responsible service utilization while maintaining equitable access to essential healthcare.
- Clearly distinguish registration, routine Outpatient Department (General OPD) consultation, emergency care, specialized consultation, diagnostic, procedural and surgical services.

2. Scope and Applicability:

This protocol applies only to the Friendship Floating Hospitals and Outreach/Satellite Clinics identified in **Annex 1**. It does not apply to the five ISDB-supported floating hospitals or their associated outreach/satellite services.

3. General Fee Principles:

Registration, consultation, procedure and investigation fees are separate charges unless a service is explicitly described as a package. Every applicable charge shall be communicated to the patient before payment and service delivery. No fees other than those approved under this protocol may be collected.

Section-A

Floating Hospital(EFH and LFH) Service Fee and Structure

(This section does not apply to the five IsDB-supported floating hospitals)

4. Token distribution:

To support orderly patient flow, each patient shall receive a color-coded token according to the required service category. Tokens shall be issued free of cost shall not constitute registration or payment. Token color shall be used only for patient-flow management and shall not affect service priority, eligibility or applic fees. Emergency patients shall receive priority according to clinical need.

Color	Category
Navy Blue	Eye
Pink	Health Camp
White	General Patient
Yellow	Dental
Blue	Elderly Patient

After receiving a token, the patient shall proceed to the registration desk.

5. Proposed service fee for Ship Hospital

Service Name	Current fee	Proposed fee	Service process details
Registration fee	Male patient BDT 20 Female & Child patient BDT 10	Male patient BDT 40 Female & Child patient BDT 30	Registration is the administrative process of creating a patient record and issuing a Patient Identification Number (Patient ID) for accessing healthcare services at the Ship Hospital. Every new patient must complete the registration process before receiving services, except in emergency situations where treatment must not be delayed due to payment or registration formalities. These revised fees replace the existing registration fees of BDT 10 for female and child patients and BDT 20 for male patients. No additional registration fee shall be collected for a follow-up visit. Patients who already have a Patient Card will not be required to pay the registration fee again for subsequent visits.
General OPD Consultation	Free of cost	BDT 100	General OPD consultation refers to general healthcare services provided to patients who come to the Ship Hospital for general healthcare services and receive a white-colored token. After receiving the token, General OPD patients will enter the Ship Hospital in groups of five (5) to receive healthcare services.

Service Name	Current fee	Proposed fee	Service process details
			At the reception counter, patients who carry a valid Patient Card will not be required to pay the registration fee. New patients will pay BDT 30 as a registration fee, and a Patient Card will be issued. Once the card is issued, the patient will be considered registered and will wait at the concerned service unit for consultation. General OPD services are provided from 8:00 AM to 4:00 PM. After receiving the service, the patient will return to the reception counter where the registration was done and pay BDT 100 as the General OPD consultation/service fee. A money receipt will be provided against the payment. <i>Note: If the patient requires pathological services, X-ray, ultrasound, or other diagnostic services, the applicable service fees will be charged separately as described in the Laboratory and Diagnostic Services section.</i>
Dental Service/Procedure	Free of cost	BDT 200	Dental services refer to services rendered to those patients who come with dental problems and identify as patients with dental issues or problems and provided with Yellow colored token. After receiving token patients will enter the ship in group of 2. Once they enter the ship they will wait in front of Dental Unit. After receiving the dental services (Anex-1), the patient will come back to the reception counter where the registration was done. For Dental services patients will pay BDT 200 taka (including medicines, no additional money will be taken for medicine) at reception and a money receipt will be provided. If any patient go to Dental unit but no intervention services are required, they will be considered as General OPD patient and will pay BDT 100 (including medicines, no additional money will be taken for medicine) and will receive a money receipt.
Eye Services	Free of cost	BDT 150	Eye services refer to services rendered to those patients who come with eye problems and identified as patients with eye issues or problems and provided with Navy color token. After receiving token patients will enter the ship in a group of 3. Once they enter the ship they will wait in front of Eye unit. After receiving the services, the patient will come back to the reception from where the registration was done. For eye services patients will pay BDT 100 at reception (for consultation and medicine required, no extra money will be taken for medicine) and a money receipt will be provided.
Emergency Services	Free of cost	BDT 100	Emergency services refer to services rendered beyond the regular OPD hours of 8:00 AM-4:00 PM. When a patient is presented for emergency care, the on-duty hospital team will assess the patient's condition and determine whether the required service can be provided at the ship. The patient will receive the necessary service, and after receiving the services patient will go to reception counter. If the patient presents Patient Card, no registration fee will be charged. If the patient does not have a Patient Card, a registration fee of BDT 30 will be charged. If the patient does not have a patient card, a registration fee of BDT 30 will be charged. If patient receives emergency services, he will have to pay BDT 100 along with BDT 30 as registration fee.

Service Name	Current fee	Proposed fee	Service process details
			If any patient comes for emergency services which are not available and further referral is required, the patient will not pay any service charge. He will receive a referral token for further management.
Surgical Camp	Free of cost	BDT 1000	I. Surgical camps services refer to those services which have been provided through organizing camps by national or international teams. II. For surgical camp patients are mobilized through different mass campaigns or referred by FCM, Satellite Clinic or from the catchment population. III. Once they come, they have been provided with a Pink colored token to identify. IV. Total number of patients referred or who come for the surgical camp will go through the screening process where usually 40%-150% patient can be screened out. V. Those who will be screened out will be advised and counseled according to requirements and they need not to pay any service charge while leaving the ship. VI. Patients who, following screening, are assessed as fit for the planned surgical procedure will be required to pay a surgical service fee of BDT 1,000. A registration fee of BDT 30 will also be applied, and the patient will be issued a Patient Card. Patients who already have a Patient Card will not be required to pay the registration fee. <u>Surgical service package shall include:</u> • Final pre-operative assessment • Surgical procedure • Patient food during the surgical camp • Follow-up consultation • Dressing • Stitch/suture removal where applicable • Patient counselling • Medicines required during the procedure and post-operative period • Anaesthesia services and approved anaesthetic medicines, where applicable • Laboratory investigations
Special Consultation Camp	Free of cost	BDT 500	The package does not include transportation, treatment not related to approved surgery, external investigations or treatment received from another facility unless specifically approved. Specialized consultation camps provide focused clinical consultation by an approved consultant or senior doctor in selected specialties. Approved specialties may include: • Hypertension • Diabetes • Pediatrics • Cardiology • Gynecology and other approved specialties.

Service Name	Current fee	Proposed fee	Service process details
			The specialized consultation fee shall be BDT 500 per patient per consultation. Approved medicines and one follow-up consultation by ship doctor within 30 days will remain free of cost, subject to clinical need and availability.
Pathological Services	Free of cost	BDT 100	a. A flat pathology service fee of BDT 100 shall be charged when one or more approved basic pathology investigations are clinically required during the same patient visit. The BDT 100 fee is separate from the applicable registration, consultation or service fee. b. The pathology service fee will apply to patients receiving General OPD, Eye, Dental, Emergency or Specialized Consultation services where basic pathological investigations are clinically indicated. No separate pathology fee shall be collected for patients provided BDT 1,000 as surgical service package fee. The approved basic pathological investigations covered by this package are listed in Annex 2.

Section-B

Outreach/Satellite Clinic Service Fee Structure

(This section does not apply to outreach or satellite services supported by the ISDBprogramme)

The following fees will be applied to approved services provided during Satellite Clinic sessions. Registration, consultation and investigation fees are separate.

Proposed service fee for Satellite Clinic Services

Service Name	Current fee	Proposed fee	Service process details
Registration fee	Male patient BDT 20 Female & Child patient BDT 10	Male patient BDT 40 Female & Child patient BDT 30	The revised fee replaces the existing registration fees of BDT 10 for male patients and BDT 5 for female and child patients.
Consultation	Free of cost	BDT 30	No registration fee shall be collected from patients who are previously registered and presented patient card. A consultation fee of BDT 30 shall be charged per patient per consultation provided during Satellite Clinic session. The consultation fee is separate from the registration fee applicable to a new patient.

Service Name	Current fee	Proposed fee	Service process details
Basic Onsite Investigation (Irrespective of the number)	Free of cost	BDT 50	This fee covers the routine clinical consultation, prescription, and medicines provided by the assigned healthcare professional during the Satellite Session. Without a prescription, the service will not be considered a service. Investigations shall be charged separately. A flat fee of BDT 50 shall be charged when one or more approved basic on-site investigations are performed during the same Outreach/Satellite Clinic visit. The approved investigations covered by this fee are listed in Annex 3.

Section C:

Fee Exemption and Waiver:

Patients who don't require immediate life-saving assessment or stabilization shall be denied or experience delayed treatment because of inability to pay, full or partial exemption may be granted to patients meeting the approved criteria. Every service fee exemption shall be documented in the prescribed waiver register and approve the designated facility authority. Staff shall not grant an undocumented exemption or collect a reduced fee without authorization.

Section D:

Fee Collection and Financial Management:

Fee will be collected by designated person at Ship Hospital and Outreach. Receipt of payment will be provided to patient for every transaction. All the collected amount be deposited to designated official Friendship Account on weekly basis report to Finance accordingly. Regular financial supervision and periodic audit will be conducted per Friendship financial and audit policy.

Section E:

Beneficiary Information and Complaints:

The approved fee schedule shall be displayed prominently in Bangla at the registration desk, waiting area, and consultation points. Patients shall be informed of applicable fee and services covered before making payment.

No staff member may collect a fee exceeding the approved amount. Complaints regarding service fees, receipts, exemptions or staff conduct may be submitted through Friendship's established complaint and feedback mechanism.

Conclusion:

This protocol will be effective from 1st October 2026 following approval by the designated authority. Before implementation, all relevant staff and beneficiaries shall be oriented on the fee schedule, services covered, fee collection process, exemption procedures and financial controls. The Health Sector shall regularly monitor service utilization, revenue collection, fee waivers, patient complaints and any barriers to healthcare access. The fee structure shall be reviewed annually, or earlier if required, based on operational costs, patient affordability, service utilization, programme performance and organizational priorities.
