PROFESSIONAL SUMMARY

- Results-driven Senior Software Engineer with 8+ years of experience in designing, developing, and maintaining enterprise-grade web applications and backend systems using Java and Spring technologies.
- Strong expertise in Java, Spring Boot, Spring MVC, RESTful APIs, Microservices Architecture, and modern software development best practices.
- Extensive experience in database design and development using Oracle, MySQL, and PostgreSQL, including PL/SQL, Stored Procedures, Functions, and Triggers.
- Proven track record of delivering large-scale business applications, including Hospital Management Systems (HMS), Beneficiary Information Systems (BIS), Contact Management Systems (CMS), and Central Bank Reporting Solutions.
- Skilled in API integration, system interoperability, data migration, reporting solutions, and third-party service integrations.
- Hands-on experience with Hibernate, Spring Data JPA, Maven, Git, SVN, and Agile software development methodologies.
- Strong understanding of software architecture patterns, object-oriented design principles, modular development, and secure application development.
- Experienced in leading development teams, managing project implementations, conducting code reviews, and collaborating with cross-functional stakeholders.
- Oracle Certified Professional (OCP) Java Programmer with a passion for continuous learning, innovation, and delivering high-quality software solutions.

TECHNICAL SKILLS

Languages:	Java, SQL, PL/SQL, JavaScript
Backend Development:	Spring Boot, Spring MVC, RESTful Web Services, Microservices, Hibernate, Spring Data JPA
Frontend Technologies:	HTML5, CSS3, JavaScript, jQuery, Thymeleaf, AngularJS
Database Technologies:	Oracle Database, MySQL, PostgreSQL, PL/SQL (Stored Procedures, Functions, Triggers)
API & Integration:	REST API Development, Swagger/OpenAPI Documentation, Third-Party System Integration, JSON, XML
Architecture & Design Patterns:	Object-Oriented Programming (OOP), MVC Architecture, Layered Architecture, Modular Development, Design Patterns
Version Control & Collaboration:	Git, SVN, Agile/Scrum Development, Code Review, Team Collaboration
Reporting:	JasperReports

EXPERIENCE

FRIENDSHIP NGO.

Senior Software Developer

Baridhara, Dhaka, Bangladesh

November 2019 – Present

- Lead the design, development, implementation, and support of enterprise applications serving healthcare and organizational operations.
- Develop scalable web applications and RESTful APIs using Java, Spring Boot, Spring MVC, Hibernate, and relational databases.
- Design and optimize MySQL and PostgreSQL databases, including procedures, functions, and triggers.
- Collaborate with stakeholders to deliver business-driven solutions and system integrations.
- Drive application deployment, user training, troubleshooting, and performance optimization.

Projects:

1. **eHospital – Hospital Management System:** A comprehensive healthcare management platform designed to streamline hospital operations, including patient registration, appointment management, billing and payment collection, service records, laboratory reporting, digital prescriptions, and operational reporting.
2. **Beneficiary Information System (BIS):** A centralized beneficiary management platform that maintains beneficiary profiles, service histories, program participation records, and reporting data, enabling efficient tracking and management of beneficiary services across the organization.
3. **Contact Management System (CMS):** A centralized system for managing organizational contacts, communication records, and stakeholder information.
4. **Strategic Action Planning (SAP):** A planning and monitoring solution developed to support organizational strategy execution, performance tracking, and reporting.
5. **Project Information System (Projecus)** – Enterprise project and donor management solution supporting project lifecycle management, donor administration, fund tracking, stakeholder communication, reporting, and document management.
6. **Inventory Management System (HISA)** – An internal inventory and warehouse management solution designed to manage stock records, inventory transactions, item transfers, consumption tracking, and store operations across the organization, ensuring accurate inventory control and reporting.
7. **MEL360 (Monitoring, Evaluation and Learning Management System)** – Enterprise monitoring and evaluation platform for tracking program performance, outcome indicators, beneficiary impact, learning activities, and organizational reporting.

Environment: Java, Spring Boot, Spring Data JPA, RESTful APIs, PostgreSQL, MySQL, JasperReports, SVN, Maven, HTML, CSS, JavaScript, AngularJS, Thymeleaf.

DATASOFT SYSTEMS BANGLADESH LIMITED
Software Developer (JAVA)

Dhaka, Bangladesh
January 2017 – November 2019

- Developed enterprise and financial applications using Java, Spring Framework, Hibernate, and Oracle technologies.
- Designed business modules, RESTful APIs, database objects, and reporting solutions.
- Participated in system analysis, development, testing, deployment, and production support.

Projects:

1. **Central Bank Reporting System (CBRS)** – Regulatory reporting platform that extracts and processes data from Core Banking Systems (Temenos T24), performs ETL operations, and generates compliance reports for submission to Bangladesh Bank.
2. **NBR e-Payment System** – Electronic payment processing platform developed to facilitate secure tax and government fee collection through integrated banking channels.

Environment: Java, Spring Framework, Hibernate, Oracle, PL/SQL, REST APIs, Maven, Git, SVN, JasperReports.

EDUCATION

Master of Science (M.S.) in Computer Science , CGPA: 3.30 Jahangirnagar University	2021 Dhaka, Bangladesh
--	---------------------------

Post-Graduate Diploma in Information Technology (PGDIT) , CGPA :3.63 Institute of Information Technology (IIT), Jahangirnagar University	2018 Dhaka, Bangladesh
--	---------------------------

Bachelor of Science (B.Sc. Honours) in Zoology , First class Titumir College, National University	2012 Dhaka, Bangladesh
---	---------------------------
